How Does it Work?

The exact nature of how this works is a little complicated for an average person to understand, but we want to ensure total transparency for our users, and so we'll go into details about how the generator works. Given the number of fake services out there that will ask you for a lot of your money to get followers, you need to know how our service operates. After all, how could someone provide a huge number of tiktok fans without asking anything in return? Well, there is an answer to how - and why - one would do that.

Users need to undergo a verification process that must be followed by the user, and when you get accepted on the system, it begins generating money. While you go about completing tasks, our sponsors pull together the amount for it that is paid to us as a certain amount of money. That money is then used to acquire the free TikTok followers that you would have otherwise been charged for. On this app, the more fans you have, the more likes you will get. Basically, it sounds like everything is completely free, but the reality is that we are indirectly paying a third-party to help you get the followers. That is why there aren't any trick or shady tools involved.

Why Us and not other free Tiktok fans providers?

Given that there are so many sites online with these services, it's evident that most people would want to know why they should use our services. We've put together some instructions that will offer sufficient reason to guide you in making the right choice. Here's why you should use our services;

No payment needed; our service is entirely free. You'll never be asked to pay anything for our services.

Simple to use; our service is super simple to use because you don't need to install any particular tool. All you need to do is go through the verification procedure.

Uses the best technology; given that the system is powered by the latest technology there are rare errors or other technical issues to deal with. That ensures that the website runs smoothly without any problems.

Works everywhere; the service works with any platform, including working great with Android and iOS devices.

No spam allowed; it ensures you are never sent spam, meaning that only real human beings are able to use the generator.

No private information required; the system will never ask you for any personal information, thus securing your privacy.

The only thing you will be asked for is the username that you use with TikTok.

No magic promises; we don't make any false claims or promises to our users. We believe going slow, and liability is what wins the race in the end, and that there are no shortcuts to success.

Our tool is simply superior when compared to the likes of tiktokfans.live, tikmax.us, viptools.es,...

Instructions on Using the Tiktok Fan Booster

Here's how you can go about adding loads of followers to your account:

Enter the username of your desired TikTok account and choose the device.

Choose "Proxy ON" to keep your IP address hidden (Recommended).

Choose how many fans, and likes you desire.

Click the "confirm" button.

Complete the Human Verification step so that the system can verify you are not a bot.

Wait for your Tiktok free followers, fans, and likes to appear.

Note; I personally advise that you choose the three-day option as it looks more genuine, and turn the proxy feature on.

Too many new fans all of a sudden can make your account suspicious.

Abuse Considerations when using our Tiktok Fans Generator

There are some things to remember when using a system like this. It's best to be completely honest when using it so that you get the best possible result. No one wants to have their account banned. That's why you should understand the do's and don'ts and such a system. The most important things to remember are:

Don't abuse the tool otherwise, you could have your account banned.

Ensure that you use the system once for your account.

We reserve the right to ban accounts that abuse our system.

You can share this tool with your social friends and family all you want as it is entirely safe and genuine.
